Pl try to call in 30 min.
I tend to believe that the higher risk possibility in regard to an emergency announcement is that VVP might warn the West of the need to put an immediate end to fighting in Ukraine -or else.
Namely,Indirectly threatening intervention on Russia's behalf.
His objective is possibly to get recognition for special standing for Russian interests in the Eastern provinces of Ukraine through negotiations from position of strength.
Stay in touch.
Best
EB
